Document: TB_T318_025

Date: 20/12/2019

Subject: ESA Maintenance

Reference:	Table	Item	Code
	22	07	083803441800 (old spec) 083803517800 (new spec)

Accomplishment: 31 January 2020

Following the inspection of ESA actuators with significant working life, it has been identified a lifespan limit of 10'000 km.

Teams are required to return the actuators by January 31st 2020 in order to service them.

Two options are proposed:

- Minimum service on the critical components: 1425,00€
- Full service including motor replacement: 2043,00€

The proposed tariffs will only be available before January 31st 2020. After this date the pricing will be quoted as single service.

The updated actuators will be identified with the new part number 083803517800.
