

For the winner of the Formula Regional European Championship 2020 a test in FIA F3 with the observers of the Ferrari Driver Academy

The Maranello-based company looks with great attention to the championship which in 2020 will feature two FDA drivers

Rome, 4 March 2020 - The Formula Regional European Championship certified by FIA is confirmed as a series of particular importance for the International Automobile Federation, which rewards the winner of the title with 25 Super License points. To this is added a new great opportunity: for those who will win the championship there will be a test on a FIA Formula 3 under the eyes of the observers of the Ferrari Driver Academy, the program dedicated to the young drivers of the Maranello company.

Ferrari's attention to the Formula Regional European Championship certified by FIA is not new since an FDA driver competed with excellent results in the championship in the first season of the series and that in 2020 the representatives of the Maranello team "nursery" will be two. At the end of the season that will start on April 25 in Paul Ricard, Ferrari will organize for the title winner a test on a single-seater of the FIA Formula 3 championship under the eyes of FDA observers, who are constantly looking for talents to insert in the Scuderia Ferrari program. If the championship will be won by a driver who is already part of the FDA, the test will be granted to the first classified who is not already a driver of the academy.
